

West Linn Aquatic Community Center

West Linn residents have long expressed an interest in a pool and the need for a community center, or civic heart. The City of West Linn is actively working toward addressing this interest by exploring concepts related to an Aquatic Community Center.

West Linn kids, teens, adults, seniors and families need a place to go that provides active opportunities to socialize, grow and engage.

The proposed Aquatic Community Center would provide a place for swimming, games, activities, fitness, classes and events that would enhance the West Linn quality of life and sense of community.
